QR Code Link to This Post 3/4 Size Cello made by Mercury's shop in Chesapeake. Slightly smaller size is ideal for young or petite players. Comes with the bow, featherweight hard case, and brand new Helicore strings just installed. The instrument is ready to play.

Overall, the instrument sounds good, stays in tune well, and is responsive when playing. It's everything you could want in a student instrument and would be a fantastic first cello for an aspiring musician.

I'm located near downtown Richmond. I can be reached by text or call at .

Let me know if you have questions or would like to see/test out the cello. If you're looking to buy it as a Christmas gift and/or are not able to play it yourself, I can play it so you can hear how the instrument sounds.

I'm also an experienced music instructor and can include one month of lessons at no additional.
