QR Code Link to This Post How is everyone, hopefully well. Looking for a few attractive female to use in a video shoot. It will be an erotic massage and last 45 min to hour. I will giving the massage, obviously. There won't be any male/female stuff, unless you are into it, just your massage. I am doing this to show the sensual side of the massage, of the two energies mixing together as one and just letting the massage happen and your drama float away. It would be an "erotic massage", meaning you would be naked and the massage would end with you having an orgasm after all the tension has been working out and you are in a state of pure relaxation and bliss. Can even do some photoshoots beforehand if you wanted to wear something sexy for your collection or entertainment, again you would be compensated. Pay is \$100 for hour. This will be going on a website so you would need to sign a release. You don't have to show face, I can edit that out but a masquerade mask would be pretty sexy. I can edit out any identifiable markers or we can just cover them up. If you are a real person and not scared, let your beauty shine, fuck what other people think. Everyone is so scared to be seen naked and have made it taboo, It is a beautiful thing and no one should have anything to be ashamed of. I highly doubt anyone you know will see it anyway, trust me on that. So what do you think about making \$100/hr, getting a hour massage (with light teasing), then having an orgasm after massage? Simple as that. We can get coffee beforehand to get acquainted and to ease your tension if you feel uneasy about it. Room is in my private residence and is located in a safe neighborhood and I have security cameras in the main part of house just for the added protection. I am looking for a female between 18-40, who is in good shape and has good hygiene. Not picky on details, just send face and body photo when responding (naked or clothed). I hope to hear from you and we can get this going. I am working on a business and who knows, maybe you could help be a starting business.
