Please don't judge. I have never done this before. I am looking for some help. I am a 30 year old male, white. I have 3 kids that stay with me when able. I have recently fallen on some hard times. I lost my job due to politics and have been out of work since OCT. I am completely out of money and about to be homeless. I apply for work daily. Interviews comes through but no permanent positions have worked out yet. I am willing to work for help or accept any help offered.

I thank you for your time and willing to forgo any more questions you might have before helping.

Happy
