QR Code Link to This Post Hi I'm looking for someone who can clear about an acre of wooded land for a good price. It has trees on it it currently, mostly pine, about 4 to 10 inches in diameter. I need it cleared and graded as well as some dirt pushed into berms. If you have access to the equipment to do this and want to knock it out on a weekend or whenever is convenient for you give me a shout.

I'm a local real estate investor and also have lots occasionally that need to be cleared in order to build, so hoping to find someone to can keep on hand for future use as.
