QR Code Link to This Post Hey guys,

I am currently writing a script for a fictional horror podcast. I am in the writing stages and should be done with the script and edits by the end of January. I am in need of someone who wants to collaborate with me on the project.

This first one I'm planning on doing most all the work on. I pretty much just need help with audio equipment. I have experience with editing, audio and film... but it's been a long time since college and hands on access to equipment.

Since podcasts are a free platform, I don't get paid for writing and there wouldn't be pay involved. I work on it after I get off work It would be a for fun/ resume building activity.

Looking for someone seriously interested just to record and edit the audio and help me promote it online.

If there happens to be a second season or a different podcast, I'd love to collaborate on a story or stories for a future one.

I do writing in Hendersonville and have a separate space in my house for edits.

If you love horror, podcasts, or recording audio, this might be a fun project for.
