Trying to form something that has the low end heaviness of Torche, with the jangle pop sensibilities of Big Country, XTC, and any assorted power pop bands, especially of the early 80s. Listen to Nuclear Boy by 20/20, and imagine the bass line being doubled up with a guitar tuned an octave down. That's basically what I'm trying to do.

I'm looking for a singer that can write not only to the few songs I have sort of written, but also write for new stuff. Again, pop sensibilities. Don't bore us, get to the chorus. Playing guitar or keys is a plus, but not necessary.

Got a space and all that jazz. If you have any recordings of yourself, I'd definitely be interested in hearing them. I have some home recordings I can send if you're.
