Opana ER 10mg, known as Oxymorphone, was approved in 2006 for the first time. The main focus of medicine is to cure severe-to-moderate pain in the body. The medicine helps in controlling the problem of pain that is unable to be controlled by any other medication so far.

In this case, the meds helps in giving an immediate response and treatment to body pain. You should take this medicine if any other medication does not control the problem.
