Siberian Kittens. Fluffy Snow Siberians is a small family cattery specializing in the pointed Siberian, or as many know them, the Neva Masquerade. Our cats live as part of the family and interact daily with dogs, people, and other cats. It is believed that Siberians are hypoallergenic and well-suited for individuals with mild to severe cat allergies.

How much should a siberian kitten cost.

Kim and I are now retired and love the freedom. I was a nurse for many years and a training manager for long-term care in two municipalities in California. Kim worked for public transit for 22 years and is now managing her business part-time.
