Siberian Kittens

Location **Georgia, Atlanta**  
<https://www.genclassifieds.com/x-816818-z>

Our primary goal is to produce low-allergen-level kittens that will fit into families with individuals suffering from cat allergies. All of our kittens are tested for FeLD1 levels at 12 weeks old. This enables us to match the kitten to the right family for a lasting relationship.

Our kittens are in homes across the USA, in France, Canada, and Brazil.
