Siberian Kitten for Sale. Fluffy Snow Slberians is a small family cattery specializing in the pointed Siberian, or as many know them Neva Masquerade. All of our cats live as part of the family and interact daily with dogs, people, and other cats. It is believed that Siberians are hypoallergenic and are well-suited for individuals with mild to severe allergies to cats.

Owning a Siberian cat is a very pleasurable rewarding and life-changing experience. the Siberian will become your best friend, confidante, problem-solver, and your house clown. Siberians are one of the most ancient breeds, beginning as the Russian forest cat. there are images of them roaming the Siberian taiga (forestland) even today, and they are reported in large numbers in the wild, Siberian outlying territories.
